Technical Skills

Programming Languages:

Python, JavaScript, Java, C

Front-end:

Next.js, React.js, HTML5, CSS3,
Tailwind CSS, jQuery, Responsive
Design, Cross-Browser Compatibility

Back-end:

Django, Django REST Framework,
Django channels, Celery, RESTful API
Development, Server Management,
Version Control, Security, MySQL,
Payment Gateways

Databases:

MySQL, sqlite3, MongoDB

Tools & Utilities:

Linux, VS Code, Figma, Docker, git,
GitHub, Postman, Node.js, Discord,
CMS, Cursor, Antigravity, Codex

Core fundamentals:

OS, Computer Networking, DBMS,
OOP, Data Structures and Algorithms

Soft Skills

Communication, Commitment,
Leadership

Languages

- **Hindi** (Mother Tongue)
- **English** (Proficient)

CAREER OBJECTIVE

Full Stack Developer with a strong foundation in building high-impact, scalable web applications using Next.js and Django. Specializing in developing custom CMS solutions and real-time interactive systems. Experienced in managing end-to-end product lifecycles, from architecture design to production deployment on platforms like PythonAnywhere and custom server environments.

WORK EXPERIENCE

Full Stack Developer | Novel Knett Software Solutions | Azamgarh

(Oct 2025 – Present)

- Engineered a proprietary Next.js Page Builder and Custom CMS, enabling non-technical users to deploy dynamic landing pages without code.
- Architected end-to-end production platforms for high-traffic trekking brands, managing role-based access control (RBAC) and complex UI components.
- Developed high-performance Next.js APIs to streamline backend-frontend integration for seamless data synchronization.
- Led the development of 2 major projects, overseeing everything from landing page optimization to backend server management.

Full Stack Developer | JS Technova | Lucknow

(Jan 2025 – Oct 2025)

- Delivered 7+ complete, production-ready websites using Django and Django REST Framework, from architecture to final deployment.
- Managed end-to-end deployment and server infrastructure to ensure high availability and application performance.
- Led technical training sessions for trainee developers, providing mentorship on Python, JavaScript, and scalable web architecture.

PROJECTS

Utkarsh - BBD University's Annual Fest Website [↗](#)

- Engineered the official university fest platform using Django to manage high-volume event registrations and live scheduling for thousands of students.

Object Hunt Game [↗](#)

- Developed a real-time multiplayer web game using React, Django, and Google Vision API, where players fetch real-world objects, validate them via webcam, and earn rewards based on speed, with integrated live chat and object tracking.

Data Forge [↗](#)

- Architected a robust data management utility with a dashboard-driven UI using Django, focusing on secure CRUD operations and high-performance data processing.

JS Technova Institute [↗](#)

- Designed and deployed a comprehensive educational portal featuring student management systems and interactive course modules.

Storm Portfolio [↗](#)

- Created a high-performance personal brand site using Next.js and Tailwind CSS, achieving near-perfect Lighthouse scores for speed and accessibility.

EDUCATIONAL QUALIFICATIONS

Bachelor of Technology

(2021 – 2025)

Computer Science and Engineering

Babu Banarasi Das University (Lucknow)

CERTIFICATIONS

- Django Full Stack Development | Jose Portilia | Udemy | [↗](#)
- Django RESTful APIs Development | Justin Mitchell | Udemy | [↗](#)
- React.js | Jonas Schmedtmann | Udemy | [↗](#)

EXTRA-CURRICULAR ACTIVITIES

- **IoT Club Coordinator:** University Hackathon: Coordinated and conducted a university-level hackathon, managing event planning, team registrations, and technical arrangements.
- **Team Leader:** Utkarsh Website Development Team: Oversaw the development of the Utkarsh event website, guided team members, and ensured timely delivery of features.
- **Member:** Aaina University Technical Community: Actively contributed to technical activities, event support, and community initiatives within the university.
